THE ATELIER

We design atmosphere.

Maison Butter – Atelje mirisa is an independent fragrance atelier in Belgrade, Serbia, founded by Ina Vukić (biotechnologist and perfumer). It makes luxury scented candles in sculptural refillable glass, reed diffusers, room sprays and scented bars, handcrafted in small batches with plant-based waxes, and creates scent branding and bespoke fragrance for hospitality and business.

Every fragrance is thoughtfully composed through the language of fine perfumery. Each candle, reed diffuser and room spray is handcrafted in small batches using plant-based waxes and carefully selected fragrance compositions.

I believe the most beautiful fragrances are the ones that quietly become part of someone's life.
